I'm a passionate polyglot engineer who architects and builds scalable applications. Lately, I've focused on contributing more to open source, talks, and finding new ways to scale teams.

SKILLS

Highly Skilled in

- TypeScript & ES7
- Angular 5/6/7, React
- React Native, Redux
- Electron & Chrome Extensions
- Appium/Protractor/Cucumber

Comfortable with

- Express, Docker, Mongo, Swagger, Sequelize
- Writing in Ruby
- Sketch & Omnigraffle
- Building Native Modules for React Native – some Java

Interested in

- Reducing Time to Interact
- New Architectural Paradigms
- AI Algorithms
- Bazel, Kubernetes

PROFESSIONAL EXPERIENCE

AWARDS

Hack The Visual Hackathon Grand Prize   June 2015

Splatmap – Map Your City in 3D

My team built a mobile-first Node.js app that gamifies 3D mesh capture. I did the wireframing, design, and CSS/HTML. This positive experience really motivated me to take my web development career to the next level.
